Global Sourcing Excellence & Innovation

Fashource & Design Ltd. is a modern apparel and lifestyle product sourcing ecosystem operating out of Bangladesh. We bridge international retail vision with flawless, ethically certified factory execution.

01 / WHO WE ARE

A Modern Sourcing Partner Built Around Product, Precision, and Trust

Fashource & Design Ltd. is a premier global fashion sourcing and product development company based in Dhaka, Bangladesh. We bridge the gap between international brand aspirations and compliant manufacturing execution. By combining market trend insights with disciplined technical expertise, we manage the complete lifecycle from concept to final shipment.

Our Core Promise

To deliver commercially relevant fashion products through an integrated workflow. We maintain transparent communication, right-first-time quality thinking, and robust supply-chain visibility so that our global retail partners can scale with absolute confidence.

OUR 6-PILLAR OPERATIONAL ECOSYSTEM

01. Market & Trend Insight

Direction, trend interpretation, and commercial product opportunities tailored to demographic target markets.

02. Product Development

Concept design, moodboards, material selection, 3D sampling, and tech-pack coordination.

03. Responsible Sourcing

Fabrics, yarns, trims, and fully compliant, ethically certified manufacturing partners.

04. Production Execution

Order placement, T&A follow-up, critical-path monitoring, and floor capacity management.

05. Quality Assurance

Inline and final inspection coordination, measurement review, and corrective action implementation.

06. Global Logistics

Packing, customs documentation, sea/air shipment coordination, and port dispatch tracking.

02 / OUR VISION, MISSION & VALUES

VISION STATEMENT

To become a trusted global fashion sourcing partner recognized for product creativity, dependable execution, responsible manufacturing, and long-term customer relationships.

MISSION STATEMENT

To deliver commercially relevant fashion products through a disciplined combination of design, sourcing expertise, technical knowledge, quality assurance, and transparent supply-chain management.

CORE CORPORATE VALUES

TRUST

Clear communication, honest costing, and dependable commitments across all programs and orders.

INNOVATION

Fresh product ideas, sustainable materials, 3D sampling, and smarter digital ways of working.

QUALITY

Right-first-time thinking from development through bulk production and final pre-shipment inspection.

RESPONSIBILITY & PARTNERSHIP

Responsible sourcing, ethical compliance, continuous factory improvement, and long-term shared commercial success.

03 / PRODUCT PORTFOLIO: APPAREL & GARMENTS

A Versatile Product Platform Across Key Fashion Categories

1. Knitwear & Casual Jersey

T-shirts, polos, tops, sweatshirts, hoodies, dresses, leggings, loungewear, and fashion jersey.

Fabrics: Single Jersey, Pique, Lacoste, French Terry, Fleece, Microfleece, Ribs, and Interlock.

2. Woven Wear & Denim Collections

Casual shirts, blouses, dresses, skirts, trousers, cargo shorts, lightweight jackets, and denim pieces.

Fabrics: Twill, Canvas, Poplin, Oxford, Rigid/Stretch Denim, Linen Blends, and Corduroy.

3. Sweaters & Fine Knitwear

3GG to 14GG fine-gauge and heavy fashion knitwear, cardigans, pullovers, and textured constructions.

Yarns: 100% Cotton, Acrylic, Cotton/Viscose, Wool Blends, Cashmere-Like, and Fancy Yarns.

4. Outerwear & Activewear

Padded jackets, winter parkas, softshell jackets, activewear gym sets, seamless apparel, and high-visibility workwear.

Features: Water-repellent, thermal insulation, moisture-wicking, and reflective taping.

04 / FOOTWEAR, ACCESSORIES & HOME PRODUCTS

Diversified Lifestyle & Sustainable Sourcing Platform

Footwear & Headwear

• Leather boots, formal footwear, casual sneakers, and canvas shoes.
• Baseball caps, snapbacks, bucket hats, fedoras, and knitted winter beanies.

Leather & Non-Leather Goods

• Genuine leather messenger bags, duffle bags, and travel luggage.
• PU fashion bags, wallets, cardholders, and classic leather belts.

Home Textiles & Bedding

• High-thread-count bed linen sets, fitted sheets, and duvet covers.
• Plush bath towels, curtains, cushion covers, and kitchen linen.

Diversified Jute Items & Handicrafts

• 100% biodegradable jute shopping bags, canvas-jute totes, and jute rugs.
• Terracotta decor, hand-woven seagrass baskets, and artisan garden accessories.

05 / DESIGN & PRODUCT DEVELOPMENT

Turning Ideas Into Products That Are Ready for the Real Market

Our product development process is designed to reduce risk before bulk production. We combine creative direction with technical discipline so that every style moves forward with clear decisions.

01. Brief
Understand brand DNA, target consumer, price architecture, and delivery calendar.

02. Concept
Translate inspiration and trends into commercially relevant product directions.

03. Material
Source suitable fabrics, yarns, trims, and finishes with performance and cost in mind.

04. Sample
Coordinate prototypes, fit samples, size sets, and approval comments efficiently.

05. Pre-Production
Lock specifications, workmanship standards, testing, and production line setups.

06. Bulk
Monitor floor execution, inline quality, packing, and shipment readiness.

06 / SOURCING NETWORK & BANGLADESH HUB

Local Knowledge, Global Standards

Our Bangladesh base gives clients access to a mature apparel manufacturing ecosystem across knit, woven, and sweater production, supported by specialized mills, trim suppliers, laundries, printing/embroidery units, and logistics partners.

Factory Selection

Rigorous vetting based on technical capability, capacity, product specialization, quality systems, and compliance profile.

Capacity Planning

Production allocation and critical-path visibility strictly aligned with buyer delivery requirements and seasonality.

Cost Engineering

Strategic material and construction alternatives that protect target pricing without compromising product integrity.

Supplier Development

Long-term capability improvement through technical feedback, quality monitoring, and transparent communication.

07 / FACTORY INFRASTRUCTURE & PRODUCTION LINES

Advanced Cutting, Sewing, and Value-Addition Capabilities

Automated Cutting

Computerized GERBER/LECTRA fabric spreaders and auto-cutters ensuring zero edge distortion and precise material nesting.

Lean Sewing Lines

Motorized JUKI/BROTHER sewing units arranged in modular lean lines for high throughput and low defect rates.

Finishing & Packing

Vacuum steam pressing, needle-detector machines, automated polybagging, and secure master carton packing.

VALUE-ADDITION & EMBELLISHMENT UNITS

Technique	Process & Capabilities Offered
Screen Printing	Plastisol, water-base, rubber print, high-density (3D), discharge, foil, flock, and metallic prints.
Digital / AOP	Sublimation printing, reactive AOP, pigment AOP, and rotary screen continuous roll printing.
Embroidery	3D puff embroidery, sequins, applique, chenille towel embroidery, and metallic thread motifs.
Garment Washing	Enzyme wash, stone wash, acid wash, tie-dye, mineral wash, resin coating, and vintage treatments.

08 / QUALITY ASSURANCE & INSPECTION

Quality Is Not an Inspection Step. It Is a Process.

We build quality into the development and production journey. Our team coordinates technical requirements, factory communication, inspection activities, and corrective actions so issues are identified early rather than after shipment.

5-Stage Quality Checkpoints

- **Development:** Spec review, workmanship standards, and measurement verification.
- **Pre-Production:** Sample approval, risk review meeting, and trim readiness.
- **Inline Inspection:** Measurement checks, construction review, and fabric consistency.
- **Final Inspection (FRI):** AQL 1.5/2.5 inspection, packing review, and labeling audit.
- **Documentation:** Test reports, inspection records, and full traceability certificates.

International 3rd-Party Lab Alignment

SGS	Bureau Veritas	Intertek

09 / RESPONSIBLE SOURCING

Building Fashion Supply Chains with Responsibility in Mind

PEOPLE

Respect for workers, fair wages, safe working hours, and safe workplace standards across all partner factories.

PLANET

Material efficiency, preferred organic/recycled fibers, water reduction, and lower carbon footprint.

PRODUCT

Non-toxic chemicals, OEKO-TEX certified dyes, durability, and fit-for-purpose product longevity.

TRANSPARENCY

Clear supply-chain documentation, active supplier communication, and full material chain of custody.

> *"Our objective is practical sustainability: measurable improvements that can be integrated into real commercial programs rather than treated as a separate activity."*

10 / FACTORY CERTIFICATIONS & COMPLIANCE

Socially Responsible, Safe, and Environmentally Certified Network

amfori BSCI
Fair remuneration, safe working hours, and comprehensive worker welfare standards.

Sedex / SMETA
4-Pillar audit covering labor, health & safety, environment, and business ethics.

WRAP
Worldwide Responsible Accredited Production certification for ethical manufacturing.

OEKO-TEX 100
Certified free from harmful substances and toxic chemical residues.

GOTS / OCS
Global Organic Textile Standard certified organic fiber chain of custody.

GRS Standard
Global Recycled Standard verification for recycled polyester and cotton inputs.

RSC / ACCORD
Full structural, fire, and electrical safety compliance across all production buildings.

ISO 9001:2015
International standard for quality management systems and operational consistency.

Cotton USA / BCI
Better Cotton Initiative licensing and premium fiber supply chain tracking.

11 / WHY FASHOURCE

A Sourcing Partner That Thinks Like Your Product Team

Commercial Thinking
We balance design ambition with target price, lead time, and production reality.

Product Knowledge
Practical experience across fabrics, construction, sampling, and floor execution.

Quality Ownership
Quality is monitored directly through development, production, and final packing.

Fast Communication
Direct, structured communication keeps decisions moving and reduces delays.

Our Working Model

Brand Brief → Material Sourcing → Sampling & Fit → Target Costing → Testing Approval → Production Placement → Inline Quality → Final Inspection → Packing → Ocean/Air Freight.

12 / CLIENT COMMENTS & TESTIMONIALS

What Global Retail Partners and Brand Directors Say About Fashource

> *"Fashource has transformed our knitwear sourcing pipeline. Their technical precision during product development and proactive communication have reduced our sample lead times by over 20%. They truly act as an extension of our own product team."*
>
> **— Senior Sourcing Director, UK High-Street Fashion Brand**

> *"Finding a sourcing partner in Bangladesh who understands European sustainability regulations and third-party lab testing requirements this thoroughly is rare. Fashource's attention to detail on GRS and OEKO-TEX compliance is exceptional."*
>
> **— Head of Supply Chain, Sustainable Apparel Retailer, Germany**

> *"The level of transparency we get through their real-time T&A tracking and inline quality checkpoints gives our buying office complete peace of mind. On-time delivery and right-first-time quality have been consistently outstanding."*
>
> **— Managing Director, Canadian Retail Importing Group**

13 / GLOBAL EXPORT MARKETS

Serving Major Retail Footprints Across Europe, North America, and Australia

15 / STRATEGIC PARTNERSHIPS & OUTLOOK

Driving the Future of Sustainable and Digital Apparel Sourcing

Digital Supply Chain Integration

We are continuously investing in 3D digital sampling (CLO 3D), cloud-based T&A dashboards, and automated barcode tracking to give brand directors instant visibility from yarn booking to container gating.

Expanding Sustainable Footprint

By 2027, our goal is to scale our certified organic cotton, recycled polyester (GRS), and biodegradable jute packaging lines to cover over 70% of total export orders, supporting net-zero retail mandates.

Commitment to Continuous Improvement

Through regular technical training workshops for our factory floor workers, rigorous internal audits, and direct feedback loops with our international clientele, Fashource remains at the forefront of quality, compliance, and design innovation in Bangladesh.
